Mr. Otero is United Staets collector of internal revenue for New Mexico and Arizona.

Avoid Sedative Cough Medicines. If you ant to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers—Advertisement.

### Dr. Hariman Speaks About Catarrh of the Lungs

prevails that Dr. Hartman claims to be able to cure incurable diseases. A report of these statements reached the doctor's ears. As soon as he hard what

S. B. HARTMAN, M. D. quick and emphat-Columbus, Ohio, ic in his denial of any intent on his part to create such

No. said the Doctor, I do not claim have any magical cures. I do claim to have a cure for any-ng. Judging from the number of letters I receive, however, concerning Mrz. Eberlein's case, from people who have similar complaints. I should judge that catarrh of the lungs is very prevalent. The number of people afflicted are increasing. In spite of the strenuous efforts of health boards catarrh prevails more and more every arch prevails more and more every

No. I do not claim to have a miracu No, I do not claim to have a miracu-lous cure. I only recite some of the things the people tell me who take Pe-ru-na. The case of Mrs. Eberlein, for instance. She was apparently dying of catarrh of the lungs. Her physician had told her so. Many people who had seen others die under similar condi-tions thought her to be dying. She commenced taking Pe-ru-na and re-covered:

Now, I do not undertake to explain her recovery. I certainly do not undertake to say that Pe-ru-na will cure anybody in the last stages of catarrh of the lungs. I make no such claim. But I do undertake to say this. As long as there is life there is hope. The doctors are liable to be mistaken. They often condemn people to die when they do not die. They say. "Mrs. So-and-So cannot live twenty-four hours," and then Mrs. So-and-So gets well. They say. "Mr. So-and-So has not a ghost of a show of living," but Mr So-and-So gets well. Now, what is it that cures such cases?

Every doctor knows that it is the

Every doctor knows that it is the vitality of the patient. The last grain of vitality was not exhausted, just enough vitality left to make one more struggle, and the disease was over

Quite a stir in medical circles was produced by Dr. Hartman's last article in which he refers to the remarkable cure of Mrs. Eberlein, of Plitsburg. The impression prevails that Dr. Hartman claims to be able to cure incurable diseases. The little assistance which Pe-ru-na gives Nature at this important point turns the tide of affairs in favor of the patient.

Not that Perru-na cures incurable diseases. No not at all. But Perru-na does lend a little much-needed assistance at a time when a feather weight on one side or the other of the balances turns the scales in favor of or against the patient. Scores and scores of times Pe-ru-na has come in at these critical moments and saved patients from imminent death. At least it seems so, I have bushels of letters reciting such things.

Pe-ru-na is a diffusive stimulant. It stimulates the circulation. It causes a warm glow of health to pervade the mucous membranes of the stomach, alimentary canal, kidneys, bladder, lungs, all the mucous membranes are apparently revivified, rejuvenated, resently revivified, rejuvenated, resently revivified, rejuvenated. That is what Pe-ru-na will do. And this often saves life. There can be no doubt of it.

often saves life. There can be no doubt of it.

Whether the case be one of catarrh of the lungs or any other chronic prostrating illness, the right stimulant at the right time, in the right doses, does the work. Explain it as you may, such things are happening every day.

I prefer not to use the word cure. I do not like the sound of it. I do not like the sound of it. I do not like the idea that people generally attach to the word. But that Pe-ru-na heips Nature, and helps Nature sometimes when she is sadly honeed of help, that I know to be the truth. That I do not hesitate to proclaim. That is exactly what occurred in the case of Mrs. Eberlein, the account of which has caused so much comment.

If I or any of my immediate relatives had exterrh of the lungs. Pe-ru-na would be given a thorough trial, I assure you. That heing the case, I can conscientiously advise any one else to do the same.

Po-ru-na Man-a-lin and La-tu-piz, manufactured by the Pe-ru-na Com-

Peru-na Man-a-lin and La-cu-pia, manufactured by the Pe-ru-na Company, Columbus, Ohio, Sold at all drug stores.

SPECIAL NOTICE:—Many persons inquire for the Old-time Peruna. They want the Peruna that their Fathers and Mothers used to take. The old Peruna is now called Katarno. If your druggist or dealer does not keep it for cale, write the Katarno Company. Columbus. Ohio, and they will tell you all about it.—Adve tisement.
